DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Crothers Victorian House is a frame structure two stories in height shaped like a backward L. The wooden siding has been replaced by aluminum siding. The house has a gable roof with an inside end chimney in the east gable end and another brick chimney in the gable end of the rear section. The front section of the house is three bays across by two bays deep; the rear wing is three bays long by one bay deep.

The facade has a side bay entrance that has a transom and sidelights. The front of the Crothers Victorian House has a one story porch with modern supports (two turned wooden posts are still located on the house.) The window sash has been changed from 6/6 to 2/4 on the first story to 2/2 on the second. The roof has a peaked dormer with a pointed window over the entrance bay. Several brackets are located along the roof's edge. In the peak of the dormer is a small piece of gingerbread. The rear wing has a bay window (one story) on the west wall. The house has a stone foundation that has been stuccoed.

SPECIFIC DATESBUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This house is a plain Victorian structure dating from the late 1860's. It was the residence of a storeowner. Its sole significance is its contribution as an historic structure to the old village of Calvert or Brick Meeting House.
